### **DETAILED ACTION**

Examiner acknowledges receipt of 3/2/07 preliminary amendment to the specification and claims which was entered into the file. Claims 1-28 are currently pending.

#### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, and 16-28, drawn to a vehicle washing system.

Group II, claim(s) 11-15, drawn to a process of applying a coating on a vehicle.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: groups I and II are linked by a common technical feature taught by Padek (US patent 3,079,935; hereafter Padek), namely applying a liquid coating onto a vehicle (cleansing fluid is applied at first rack and first manifold (2) (Fig 1, col 3 lines 32 – 52)), and applying a continuous sheet of water freely onto the applied coating on the vehicle (after receiving the cleansing solution, the vehicle travels under second rack and spray manifold (16) where a curtain of rinse water is dispensed upon the vehicle (col 4 lines 31 – 53)). Therefore there exists a lack of unity of invention a posteriori as the technical feature common to both inventions has been taught to be common, not special.

3. A telephone call was made to Eric Curtin on 4/9/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1792

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NATHAN H. EMPIE whose telephone number is (571)270-1886. The examiner can normally be reached on M-F, 7:00- 4:30 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Cleveland can be reached on (571) 272-1418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
